

Sweet Amends

Verse 1
The autumn leaves have changed like you and I
The summer that we had has come and gone
Life is all frozen and love is asleep
Will it return
Like the springs' dawn

Verse 2
You were an orchid in a shadow field
More fragile than I ever knew
And maybe you thought that I just didn't care
But in silence I bled
For you

Chorus
I still wait for a different ending
I still wait for a different end
I have faith you will be sending
The sweet amends
The sweet amends

½ Refrain
And I will be there
I will be there for you

Chorus
Waiting for a different ending
I still wait for a different end
I have faith you will be sending
The sweet amends
The sweet amends

Music Break
Verse 3
Unspoken words have let my hope survive
Like the seed that you planted in my heart
Its roots are too deep—I can't tear them away
If yours are alive, it can blossom
Someday

Refrain
And I will be there
I will be there for you
I will be there
Waiting to see you through
These stormy days
Without your grace

Chorus
I still wait for a different ending
I still wait for a different end
I have faith you will be sending
The sweet amends
The sweet amends

Chorus
I still wait for a different ending...

Vamp
Life is too short
So this is my sweet amends
